

Health and Safety

General Statement of Policy

Our policy is to provide and maintain safe and healthy working conditions, equipment and systems of work for all our employees, and to provide such information, training and supervision as they need for this purpose.

We also accept our responsibility for the health and safety of other people who may be affected by our work activities. This policy applies to all employees of the practice, dental hygienists and other contractors providing services to the practice.

The policy will be kept up to date, particularly as changes occur within the practice. To ensure this, the policy, and the way in which it is operated will be reviewed each year.
