

PRIVATE PATIENT REGISTRATION

Welcome to Brookview Dental Care. The main aim of the practice is to help you to achieve and maintain a healthy mouth and attractive smile.

Please read and sign the information below to register as a private patient and understand the commitment.

I have agreed to attend Brookview Dental Care, paying private charges for any dental examinations and treatments as I have them.

I shall attend the practice for an examination and any associated treatment every three, six or twelve months as advised by the dentist in order to maintain my dental health.

As long as I attend the practice with this regularity the practice will provide:

- Access to out of hours emergency cover
- NHS registration for my children under, and up to, 21 years of age

I understand that if I do not keep up my Private registration by regular attendance at the practice **(at least once per year)**, I will lose access to emergency appointments offered within 24 hours, and access to out of hours emergency treatment and advice. Any children I may have registered with the practice under the NHS will lapse from the practice NHS list and will then be considered to be private patients also, i.e. charges will apply for subsequent examinations and treatment.

The option to join the Denplan Care program also remains open to me at any time provided I am dentally fit and no recommended treatment is outstanding.

This registration can be ended by myself, or the practice, by notifying the other party in writing.
