

Dear

At Brookview Dental Care, we offer our patients the benefit of being able to budget for their dentistry with our dental plans, supported by Denplan Ltd, the country's leading dental health company.

For example, for a monthly fee of £17.66, just 58p per day, you will receive:

- . 2 examinations per year
- . 2 scale and polish appointments per year
- . Routine x-rays as required
- . 10% off the cost of all routine dental treatment

PLUS (if you opt in to Denplan Supplementary Insurance which is included in the monthly fee)*

- Emergency out of hours cover (normal cost is minimum £140 per visit).
- Temporary emergency dental treatment in the UK.
- Temporary emergency dental treatment when overseas.
- Mouth cancer cover.
- Worldwide dental injury cover.
- Hospital cash benefit for dental care and treatment.
- Access to Denplan's 24 hour worldwide dental emergency helpline.

Please refer to the Denplan Supplementary Insurance literature for terms and conditions, benefit limits etc.

We believe it to be excellent value for money and it allows you to spread the cost of your routine dental care with affordable monthly payments. With an emphasis on preventative care, including advice and regular check-ups, your plan helps you and your dentist to spot and avoid costly dental problems before they happen.

If you would like to discuss this further please speak to a member of the team.

Yours sincerely

Brookview Dental Care
